Certified Farm

Create a Personal Connection with the Industry and Consumers

The Envirocann Certification is the best way for cannabis brands to guarantee they'll receive the attention they deserve throughout the supply chain.

Satisfied Consumer

THE ENVIROCANN NETWORK

Certified Manufacturing

Certified Farms ensure Confidently Clean Cannabis

Lab testing during production ensures the integrity of the supply chain and allows for complete transparency to the distributor and consumer.

Certified Retail

Attract a New Concious Generation of Consumers

Informed consumers are looking to shop at a location that provides well educated staff, clean environment, and a reliable inventory of top shelf, Certified, and organically produced cannabis products.

Envirocann is more than a 3rd party certification company... We are a bridge between the world's best cannabis brands and consumers.

CERTIFIED LIKE A PRO

Hello@envirocann.com

FARM CERTIFICATION OVERVIEW

OUR OBJECTIVE

We help direct the consumer towards companies that are dedicated to delivering clean, quality products every time.

From the farm to the shelf we verify **Best Management Practices**, the production of **Clean & Compliant** cannabis, **Environmental Stewardship**, and a commitment to **Social Justice**.

Envirocann Certification aims to connect conscious cannabis brands and consumers...the ones **dedicated** to the **community** and to the **integrity** of the **cannabis** plant.

Envirocann Certification

We offer a process and product based certification that reflects local, state and environmental compliance combined with onsite inspections backed by laboratory analysis. This level of certification requires routine sample collections and site audits with pesticide residue testing. The **Envirocann** logo is used to distinguish **Clean, Compliant**, and **Sustainably** cultivated products.

Envirocann Certification

The **Envirocann** certification reflects that all state and local compliance standards are met along with the implementation of Organic Management Practices, including regenerative land stewardship. This level of certification allows farmers to display the **Envirocann** logo on final products. The **Envirocann** logo represents cannabis grown using exemplary practices, organic inputs, and in a manner exceeding current National Organic Standards.

Certified like a Pro

Hello@envirocann.com

FARM CERTIFICATION PROCESS

Step 1: Complete Application +
Contract + Pay Fee

Step 2: Complete Envirocann
Management Plan (EMP)

Once EMP is completed we must first conduct a **desk audit** before next step.

Step 3: Schedule Inspection(s)
Every inspection our team conducts
sampling of material in production for
every 5K - 10K sq ft of cultivation.

Step 4: Complete Lab Testing
Requirements
Consistent with your states pesticide testing
requirements but conducted **during** production.

Step 5: You're Certified!

Call us at (831) 440-6290 or email at
hello@envirocann.com for pricing details.
